The drug list is also available on Healthcare.gov and on HealthSherpa.com. If a member enters a medication and it shows "prescription not covered," check the drug list to see if there are any limits or requirements:

- Certain medications need approval (PA) from Cigna before the plan will cover the medication.
- Certain medications have quantity limits (QL) and only cover up to a certain amount.
- Certain medications are not covered until a lower cost alternative is tried first (ST).
- Certain medications will only be covered if it's within a specific age range (AGE).
