

GET /Coverage

Retrieves all coverage resources for the Patient ID specified in the request. The Coverage reference resource is returned with data that is effective as of the claim's date of service. The payer decides whether to return data that is effective as of the claim's date of service or current data for the Patient, Organization, Practitioner, and Organization Reference resources.

Sample Request

The following example request retrieves all coverage resources that match the specified Patient ID:

GET

```
https://test-api.ascension.org/csp/healthshare/hsods/fhir/r4/Patient/PatientID/Coverage/
```

Sample Response

```
Unset
{
  "resourceType": "Coverage",
  "beneficiary": {
    "reference": "Patient/100008316"
  },
  "payor": [{
    "reference": "Organization/422"
  }],
  "status": "active",
  "id": "537",
  "meta": {
    "lastUpdated": "2022-08-08T21:09:31Z",
    "versionId": "1"
  }
}
```

HTTP request

```
https://api.ascension.org/csp/healthshare/hsods/fhir/r4/Coverage
```
