

# For Ascension Personalized Care Providers

Labcorp is a participating laboratory network provider for outpatient, specialty lab, and pathology testing services for **Ascension Personalized Care**.

You are an in-network provider with Ascension Personalized Care, Ascension's Affordable Care Act (ACA) plan. If you have questions about Ascension Personalized Care please visit: **ascensionpersonalizedcare.com**.

Please send your **Ascension Personalized Care** patients' laboratory testing to Labcorp.

Labcorp is committed to providing convenient, high-quality, and cost-effective laboratory testing.

Rooted in science and powered by dedicated people, we deliver timely, trusted information to providers, drug developers, and patients with one goal: helping them all make clear, confident decisions.

**Labcorp is your one-source laboratory, combining its expertise in innovative clinical test technology through its specialized labs.**

**We offer many service enhancements for you and your patients, including:**

#### **Comprehensive Test Menu**

- Nearly 5000 frequently requested, specialty, and genetic tests
- An increased emphasis on precision medicine tests to help you provide more personalized care for each patient

#### **Patient Convenience and Access**

- Easy and convenient web-based tools available to:
  - help patients schedule and check in to lab appointments
  - estimate out-of-pocket testing costs and access test results
  - simplify billing and payment
- Expanded specimen collection locations, including a growing retail presence

#### **Value-based Care**

- Data tools to help your practice with value-based care and population health initiatives

#### **Variety of Test Order and Result Delivery Solutions**

- Simplified test orders and results through intuitive EHR interfaces, including access to historical test Labcorp results regardless of the ordering physician

#### **Clinical Studies**

- The opportunity for you and your patients to participate in clinical studies through our Covance business, helping to advance treatment of complex diseases and speed the delivery of new treatments to patients
